- 
- We have had tremendous success with both children and adults on the ASD Spectrum using this modality ranging from improving digestion, sleep, reducing aggression or rage, verbal and physical expression.

- 
- Working with a physicist this past year, energetic commonalities have been discovered with every autistic child that was seen. Sonic Reiki is a tool that allows us to correct energetic patterns that create symptoms of Autism.

Sonic Reiki addresses

- Both physical and etheric issues in regards to Autism
- Inherited karmic patterns within the DNA/RNA
- Transmutation of heavy metals
- Emotional blocks between parent and child
- Past life disease patterns that relate to quality of life for the child

Grounding issues

Every child that we have seen was born without an Earth Template below their feet.

Without this Earth Template the child's chakra system has a tendency to ride up. This is one of the reasons why a lot of the Autistic children seem to be in two different places at once.

Allergies

- Sonic Reiki address the root causes of allergies.
- Recent studies suggest that children with Autism may respond to certain foods, particularly gluten-and casein-containing foods, by producing more of these inflammatory cytokenes.
- We educate the parent about how to stimulate energetic trigger points that release allergy symptoms

Cords , Curses and Entities

- Many times a person has cords, curses and entities attachments that keep them from evolving.
- A Sonic Reiki Practitioner is educated in releasing these issues easily and effortlessly.

- 
- Recently, the ability of sound and light to heal DNA has been scientifically documented by a Russian research team of geneticists and linguists. Sonic Reiki is a tool that allows us to have the capability to turn on and turn off gene expressions using intent.

Our goal is:

- To help educate the parent so they can find their own truth. When a parent knows their own truth they begin to trust in the unknown. This allows the parent to look out side of the box allowing the understanding of Autism to become clearer. If you can see it you can heal it!
